

UPSSO

PRODUCT OVERVIEW

AN UNIFIED IDENTITY
SOLUTION PROTECTING
ALL NODES OF YOUR
ENTERPRISE

UPSSO PRIVATE LIMITED

<https://www.upsso.net/>

UPSSO (Unique Performance Single-Sign On) protects all your cloud/on-premise assets such as peoples, servers, endpoints, devices, VPN, and applications using Single Sign-On, Multi-factor Authentication, Workflow, and real-time intelligence.

This product provides a unified layer of security to your sensitive enterprise resources, also making sure the right people have access to them.

DEVICE AND VPN SECURITY

UPSSO

UPSSO provides SSO/MFA for devices such as VPNs, Routers, Firewalls & Linux servers. It achieves this by supporting RADIUS protocol and custom

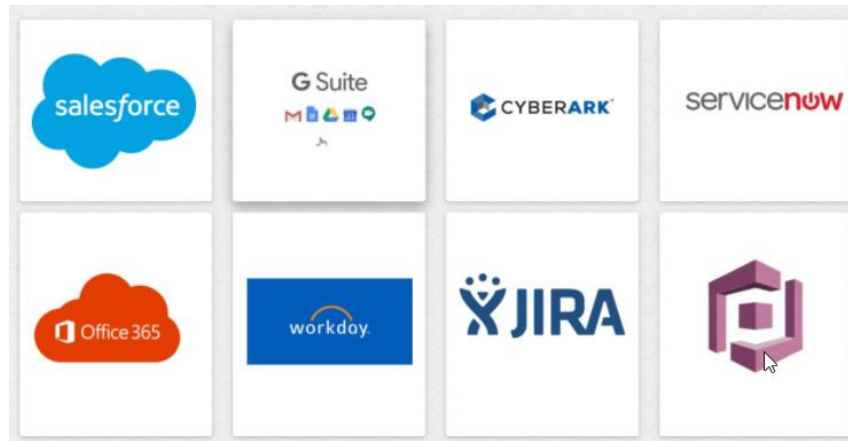

ACHIEVE ROBUST VPN SECURITY WITH UPSSO MFA/SSO

credential providers. Some of the well-known devices we can integrate with UPSSO are CISCO ASA VPN, CHECKPOINT VPN, PALO ALTO VPN, OPEN VPN, REDHAT LINUX, and UBUNTU LINUX

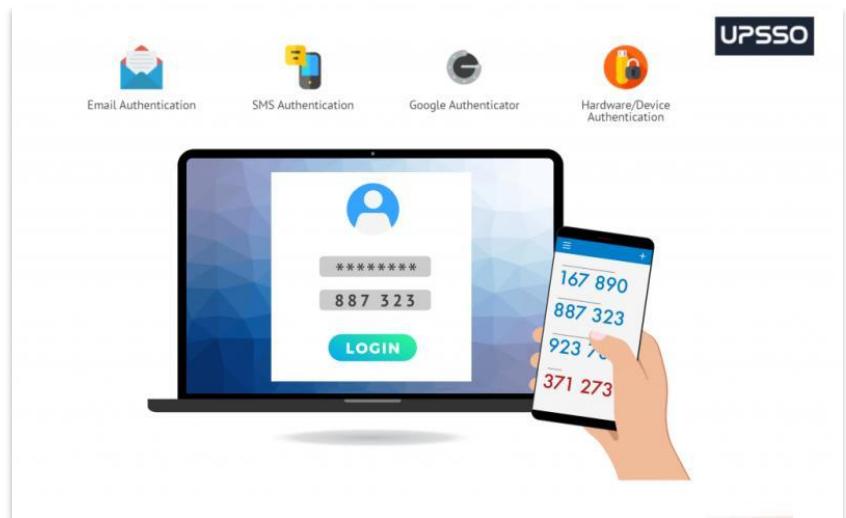

APPLICATION SECURITY

UPSSO provides authentication services for most enterprise applications such as CyberArk, Salesforce, G Suite, Office 365, ServiceNow, AWS Cognito Federation, etc. UPSSO supports all the popular authentication protocols such as OAuth 2.0, OpenID, and SAML also provides extensive API support for custom application integrations.

WINDOWS ENDPOINT SECURITY

UPSSO has an easily deployable Windows Multi-factor Authentication solution. It makes the user onboarding experience very smooth and provides offline/online authentication methods.

IDENTITY SERVER

UPSSO comes with an Identity Provider server that includes user management, role management, multi-factor authentication management, and policy configuration management functionalities. UPSSO integrates very well with the Active Directory server too.

COMPLIANCE AND AUDITING

The product has all the required compliance and auditing functionalities such as SIEM integration, Audit Trail, and Activity Reporting.

Contact: UPSSO Private Limited, # 14 & 15, 1st Floor, Krishna Reddy Colony, Domlur, Bangalore – 560071, India.info@upsso.net, <https://www.upsso.net/> +91-9916421806, +91-9008599332.

REST API

The product has extensive REST API support to automate operations or integrate with various external systems.

UPSSO SAAS

UPSSO can be deployed as an on-premises or cloud application. If required it can enable secure communication between your on-premises Active Directory and cloud UPSSO application.

OUR CLIENTS

Here are our trusted corporate clients,
